Harbor

Brand Guidelines

Version 3.0 · October 2026

For the app, the piers and everything in between.

WHO WE ARE

Calm, clear, on time.

Harbor gets people across the bay. Ferries, water taxis, the 6:10 to Gull Island. Everything we make should feel like a good crew: it knows the water, says what's happening and doesn't make a fuss.

Say when, not maybe

Departures, delays and prices come first. Everything else can wait.

Talk like the crew

Short sentences and plain words. No exclamation marks, no jokes about the weather.

Show the real bay

Our own photos of our own piers. Never stock skylines.

LOGO

The mark and the name

Clear space

Keep a gap the height of the lamp room on every side.

Smallest sizes

Mark: 24 pt tall. Wordmark: 72 pt wide. Smaller than that, write “Harbor” in the headline face.

Don’t

Recolour the beam, put the mark on a busy photo, or stretch it.

Navy does the work. Amber points.

DARK MODE

Night crossing

Dark mode isn’t light mode inverted. Backgrounds go to deep navy, not black, and amber gets lighter so it still reads at night on deck.

- Photos stay as they are. Never dim them.
- Surfaces are one step lighter than the background.
- Status colours lift to keep contrast.

PHOTOGRAPHY

Our water, our light

Early light, late light, real boats. Crop to 3:2 for cards and 4:5 for onboarding; keep the horizon in the top third.
